HyFlex® 11-600 Glove

Safety Without Sacrificing Performance.

Virtually bare-handed dexterity.

The HyFlex® 11-600 glove delivers the protection of a glove while retaining exceptional tactile sensitivity. Your workers can perform their job almost as if they weren't even wearing a glove—keeping injury expenses low and productivity high.

Cool and comfortable protection.

The HyFlex 11-600 glove delivers maximum dexterity and sensitivity for jobs that require handling or assembling small parts. Balanced with protection and a relaxed, ergonomic fit, it's a glove with performance characteristics suited to a wide variety of applications and work environments.

◆ HyFlex® 11-600 Glove

Outstanding Product Attributes & Benefits

Polyurethane palm coating

- ◆ • Maximum tactile sensitivity in the finger area for exceptional feel
- ◆ • Excellent fit and performance keeps productivity high
- Provides solid grip in both light oil and dry environments

Ultra-cool stretch black nylon liner

- Provides bare-hand dexterity
- Breathable nylon liner increases worker acceptance and safety compliance
- Hides soil providing longer wear and reducing overall replacement costs
- Available in a wide range of sizes to protect more workers (5-11)

Solid gray polyurethane coating*

- Can be laundered and reused—perfect for light oil and industrial applications where gloves soil quickly
- Durable material is machine launderable with minimal shrinking and excellent recovery
- Laundering helps reduce total cost of ownership

*Also available in white for clean applications
