

PRODUCT PROFILE

MSA Firehawk CBRN Air Mask 30 Minute HP SCBA

FEATURES

FIREHAWK CBRN AIRMASK 30 MINUTE HP SCBA

MSA Firehawk CBRN Airmask 30 Minute HP SCBA gives you more safety and ergonomic features than any other Self Contained Breathing Apparatus on the Market. MSA Industrial Masks now wear the trademark "Airhawk" name. CBRN positive protection is provided by MSA's exclusive tetraplex shield which serves as the first line of defense in preventing chemical warfare agents from any initial contact with the critically important second-stage diaphragm. A new insert, now standard on all MSA cylinder valves, reduces the thrust of cylinders if they are mishandled. A buddy light on the MSA heads-up display lets others know when you are low on air, reinforcing the distinct communication of the Audi-Larm.

CBRN = Chemical, Biological, Radiological, Nuclear
Meets NFPA 2002 standards.
