

SERVICE CENTER OVERVIEW

We are now offering rental and repair of Self Contained Breathing Apparatus (SCBA) units, instrumentation, and fall/confined space equipment. We specialize in MSA Instrumentation, SCBA and Airline Equipment. We also carry and service the complete line of Industrial Scientific instruments, as well as others, plus MSA fall protection equipment. Safety Services is committed to providing the highest level of service and repair in the safety industry.

You can depend on us for reliable service and quick turnaround. We offer inspection, repair and maintenance cleaning, rental and training for respiratory equipment, instrumentation, fire equipment, SCBA units, fall protection equipment, and more. Our experience in the industry coupled with the expertise of our technical staff allows the customer cost savings by reducing vendors, standardizing equipment and procedures, and providing accurate and vital documentation.

Our knowledgeable, factory trained and certified technicians perform work according to specified regulations and manufacturers' guidelines. Our customers' equipment is kept in excellent working order because our technicians are experienced and constantly keep themselves current on training and equipment changes, and/or notices and recalls. We endeavor to combine all the essential elements of service into an effective, total solution of Safety Services.

Industrial Safety Equipment, Instrument Rental Service

Count on SSI when you need to rent for a day, a week or a month. We maintain a complete line of monitoring equipment, portable gas monitors, and air sampling equipment. All our equipment is from top manufacturers such as Industrial Scientific and MSA. We can supply you with SCBA units, ventilation equipment and confined space/fall protection equipment. Most likely we will be able to meet your needs and get the unit out to you right away.

When you are debating about renting, consider the benefits you can enjoy!

- No capital investment
- No maintenance cost
- We maintain the records
- On-site capabilities
- Extensive inventory
- Single sourcing

And, best of all, you'll save money! Help keep your budget stable with payments that are consistent. Remember that lease payments are deductible! Contact us today. Your safety equipment will be ready to perform for you when you need it.

RENTAL POLICIES

HOURS OF OPERATION Monday through Friday, 8:00 AM - 5:00 PM.

PICK UP When customer picks up rental equipment after 3:00 PM, the rental period begins at 8:00 AM the following day.

WEEKEND RENTALS Special weekend rentals are available. Pick up equipment between 3:00 PM and 5:00 PM on Friday, return before 9:00 AM Monday. Rentals are charged at 1-1/2 times the daily rate.

MINIMUM Regardless of pick-up and return times, a minimum of one day rental will be charged. Ship to Rental billing starts the morning equipment is received. All equipment is shipped overnight.

RETURN SHIPPING When equipment is return shipped, (SSI requires Fed Ex or UPS Overnight for all return shipments), the billing period ends when it is received at Safety Services, Inc.

RESERVATIONS Reservation of needed equipment is encouraged. Reserved items must be prepaid via charge card or established charge account when the reservation is made.

NO SHOWS Failure to pick up reserved equipment will result in a charge of 50% of the daily rental fee for that equipment.

RENTAL DISCOUNT We offer 10% rental discount to customers who rent while their equipment is in our Service Center for repair.

FREE RE-CALIBRATION A courtesy re-calibration is offered within the rental term when equipment is rented for an extended period of time, at no additional cost. Re-calibration must be scheduled with the Service Center.

REPAIR SERVICES

Safety Services, Inc.'s factory trained and certified technicians can provide the necessary expertise to keep your equipment in good working condition. We repair portable and fixed gas monitors, and our repair capabilities range from routine calibrations to component level PC board service. Bring your instruments to SSI and you will receive them back quickly, and ready to continue protecting your personal safety. Only NIST certified and traceable gas and factory authorized parts are used in our repairs. Complete and extensive documentation is maintained.

INSTRUMENT MAINTENANCE – Need more than just a peel-off sticker telling you when your instrument was last serviced? The SSI Service Center wants to be the place you go when you need equipment serviced or repaired, or you need to rent a piece of equipment. With the help of our systems based Service & Repair Module software, we are able to keep careful maintenance records on every service and repair we do. Your instruments are organized and entered into our system so we can provide you with statements on last and next service due dates. Pretty convenient for our customers, plus it eliminates wasted dollars and time.

ON-SITE SERVICE – Schedule a field service visit from our technical staff to service your location's instrumentation, respiratory products, fire equipment, and other critical safety equipment requirements.

We are a warranty service center for:

- MSA
- Industrial Scientific

We are authorized to sell or test and repair equipment from the following manufacturers:

- MSA
- Industrial Scientific
- Biosystems
- Reed Instruments
